- **Color:** Polo Red / Black Leatherette
- **Early 911**
- **Matching numbers & colors**
- **COA & Kardex**

This 2.0 litre 1966 Porsche 911 is the perfect car to drive trouble free in an early 911.

It is a very well maintained matching numbers example with the original classic wooden steering wheel and annex wooden inlay dash. The Polo Red paint and the black interior are as correct as at the moment when the Porsche left the factory on February the 25th in 1966.

The paint had had one respray, but still has it deep red gloss – we did an intensive car detailing- to restore that deep red gloss, and it look as new!

Momentarily the car is on 4 (+1) original Fuchs rims, **but included in the sale** are 4 (+1) classic chrome rims.

The 2.0 flat-six combined with the matching Weber carbs is creating a magnificent sound, she drives perfect, shift gears as smooth as ever and absolutely doesn't smoke. You're always welcome for a test drive.

This 1966 Porsche 911 is the ultimate opportunity to drive and enjoy an early 911 without worries!
