All new tires

## **THE 911R PARTS:**

Fiberglass front and rear fenders, trunk hood and engine lid

100L fuel tank with the typical 911R filler cap adapted from an original 911 gas tank

lightweight windows front and rear. Rear side “shark” windows. side front window race windows.

Custom made lightweight door handle's

\* R – taillights, front & rear turn signals. R style daylights

\* Prototipo steering wheel

\* lightweight dashboard

\*R exhaust system

\* R lightweight engine mount

\* lightweight carpet

4 Cibee palace headlights

This car is particularly well maintained, the engine has had regularly updates, this year we even installed a 75 amp alternator to have more stable electricity true-out the entire car in all circumstances. The ignition was adapted with an electronic delco system.

This gulf color 911R is installed with a mechanical tripmaster, a Brantz S2 and a crème de la crème Blunic II rally navigator.

The construction year “1968” makes this car almost eligible for al Historical races. It is a really fun and powerful car to drive, which has a lot of attention every wear you drive it.

Coa, FIVA pass, taxation report.
